SEE SEQUOIA BY SHUTTLE!

Through September 20th

Highlights SEQUOIA PARK

GIANT FOREST

BE CAREFUL. Review safety advice on page 5. You are on your own in the parks; travel safely! Let someone else drive — try the shuttle.

GIANT FOREST MUSEUM

Shuttle stop. The best place to learn about sequoias!

BIG TREES TRAIL

A paved, level, 2/3-mile (1 km) loop with colorful trailside panels describing sequoia ecology. Start at Giant Forest Museum; parking at the trail is only for cars with placards. 1 hour round trip.

GENERAL SHERMAN TREE:

Two trails go to the world's largest tree. The shuttle stops at the beginning of each one:

- **Main Sherman Tree Trail & Parking** - The trail, 1/2 mile down to the tree, has some stairs. It is an uphill walk back to your car. Drive two miles (3.2 km) north of

Giant Forest Museum (past the small Sherman Tree parking lot *for those with disabled placards only*) to Wolverton Road. Turn right, then follow signs. If you can walk down but the walk back up is too difficult, through 9/20 you can continue from the tree down the accessible trail to the shuttle stop on the Generals Highway, then ride the *north-bound* shuttle (toward Lodgepole) back to your car.

- **Wheelchair-accessible trail** from Generals Highway to Sherman Tree - *Parking for those with disabled placards only.* If you have no placard but won't be able to make the walk down the main trail, ask for a temporary permit at a visitor center or take the shuttle.

CONGRESS TRAIL: A fairly level 2-mile loop (3.2 km) from the Sherman Tree into the grove.

MORO ROCK/ CRESCENT MEADOW

No drinking water is available along this 3-mile (5 km), dead-end road that begins at Giant Forest Museum. During shuttle season (through 9/20), single vehicles more than 22 feet long and vehicles towing anything are prohibited. Exception: display of valid disabled-parking placard. On holiday weekends (9/4-6), all private vehicles are prohibited. Highlights include:

MORO ROCK: Shuttle stop. A granite dome with a steep 1/4-mile (.4 km) staircase to the summit (300 foot /91 m elevation gain) and a spectacular view. Two miles (3.2 km) from the Generals Highway.

TUNNEL LOG: A fallen sequoia that was tunneled through, and the only "tree you can drive through" in these parks. There is a by-pass for larger vehicles. 2.7 miles (4.3 km) from the Museum.

CRESCENT MEADOW: Shuttle stop. Summer wildflowers in a fragile meadow. Stay on designated trails; use only fallen logs to walk into meadows. Try the 1-mile (1.6 km) route to Tharp's Log (a cabin in a fallen sequoia) or the High Sierra Trail (71 miles/114 km to Mt. Whitney, at 14,494 feet /4417 m, the highest peak in the 48 states).

MINERAL KING

See page 8 for information.

NEARBY TRAILS

TOKOPAH FALLS: 1.7 miles (2.7 km) along the Marble Fork of the Kaweah River, ending at granite cliffs and a waterfall. Be careful by the water! Start in Lodgepole Campground (a shuttle stop). For the 500-foot/152-meter elevation gain, allow 2-1/2 to 3 hours.

THE FOOTHILLS

The lower elevations offer more different kinds of plants and animals than the conifer forests or highcountry. Watch for ticks, poison oak, and rattlesnakes.

HOSPITAL ROCK PICNIC AREA:

Exhibits about the Western Mono people who once lived here, and a very short trail built by the Civilian Conservation Corps leads to a waterfall. Careful; drownings often occur here! Always store food from bears.

MARBLE FALLS TRAIL climbs 3.9 miles (6 km) through chaparral to a cascade. Park across the main road from Potwisha Campground. (No non-camper parking in campground). From the trailhead near site #14, follow dirt road across the concrete ditch; the trail starts along the steep bank to the right.

PARADISE CREEK: At Buckeye Flat Campground, take the path across from site #26 across the footbridge over the Middle Fork. Follow Paradise Creek (not the Middle Fork) for 1-1/2 miles (1.6 km) until the trail grows faint.
